

Central Digital
& Data Office

A New Era for Digital Transformation in Government

Megan Lee Devlin, Chief Executive

The Central Digital and Data Office is the **strategic centre** for digital transformation within UK government

CDDO puts the conditions in place for transformation and leads the 26k strong Digital, Data and Technology function

A transformed, more efficient digital government, **fit for the digital future** and delivering better outcomes for everyone

6 missions to transform for a digital future

MISSION 1:

Transformed public services that achieve the right outcomes

MISSION 2:

GOV.UK Login for government

MISSION 3:

Better data to power decision making

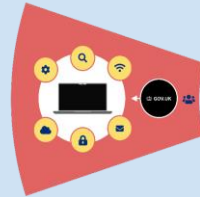

MISSION 4:

Secure, efficient and sustainable technology

MISSION 5:

Digital skills at scale

MISSION 6:

A system that unlocks digital transformation

Enabling our digital future

Business
leadership of
the agenda

Concrete,
focused
commitments

Co-creation and
confirmed
agreement

What does a 'new era for transformation' mean in practice?

From **uneven experiences** across and within departments

To focused end-to-end redesign of our top 75 **services to a great standard** in terms of usability and efficiency

From over **100**
different ways
to log in to
different
government
services

To a **single, easy**
way for users to
access all of your
government
services

From a proliferation
of code, patterns
and solutions **in**
individual teams
that take months to
build from scratch

**To a marketplace of
solutions for
government** - where
colleagues can use
off-the-shelf code,
patterns, architecture
and solutions at pace

From many
department-specific use cases
of emerging
technology and a
web-first service
strategy

To **systematic
adoption** of
emerging
technologies and a
**mobile app
strategy** for all of
HMG

From digital skills
being sitting at the
heart of **the Digital,
Data and
Technology
profession**

To a government
where digital skills
**are a core capability
for all civil servants,**
especially our leaders

Making the most
of the system we
operate within

Innovating at scale
within a system that
takes measured risk
and enables
continuous teams to
thrive

Thank you
