Talking points for today

- Everything is different now, and every place is different
 - Understand the change, understand your place
 - What is the problem you are trying to solve and what do you do when the goalposts move?
 - Adapting and changing fast is easy to talk about, hard to do
 - The human side of change, from a leadership perspective
 - Remember, you are human too
 - Reflecting on how to do it differently
 - Be careful of context shift
- 
- A yellow decorative shape, resembling a stylized arrow or a corner piece, pointing upwards from the bottom left of the slide.

Thank you - Diolch
